Tecnicality Causes Delay

Governor Pardee Refuses To allow Extradition of J. L. Bock.

The inclusion of three or four unnecessary words in the complaint against John L. Bock, Josiah Smith and Delbert Smith, who are charged with perjury in a damage case against the city, caused the governor of California to say that the papers presented by Sheriff Linville were not in order, and to refuse the extradition asked by Governor Chamberlain.

In the sworn statement upon which the requisition for extradition was based use was made of the words "to the best of my belief," whereas the law requires that the offense shall be charged as an absolute fact. It was upon this technicality that Governor Pardee refused to allow the extradition of the prisoners, and caused probably another two weeks' delay.

District Attorney Allen at once went to work upon a new set of papers, and will leave for Salem today to have them signed by the governor. The Oakland police will hold the men until the arrival of the new papers so that justice will not be defeated by the insistence of the Californian executive upon the technicality mentioned above.

WALL TUMBLES SUDDENLY.

End of Sanborn's Coal Shed Falls Across Adjoining Wharf.

Left entirely without support through a curious accident, the wall at the west end of the Sanborn coal wharf fell across the abandoned dock beneath it yesterday afternoon. Fortunately there was no one working in the immediate vicinity, or a serious accident would undoubtedly have taken place for the wall was heavy enough to squash a man flat as a pancake.

The building adjoining the coal shed had been raised by a contractor, and in doing the job it looked as though the wall in question was part of the coal shed building. As a matter of fact it was the east wall of the warehouse that was being pulled down instead of the west wall of the shed. The wall being thus left entirely without support collapsed suddenly and fell over the old wharf.

CHANGES AT FORT CANBY.

Dr. James E. Miller, who was surgeon at Fort Canby for some time, has resigned his position in the army, and has gone to Alaska to act as physician for the Pioneer Mining company of Nome. Doctor Miller has been succeeded at the fort by Dr. Edward Bailey who went over yesterday. Steward C. R. Thompson of the army medical service came over from Fort Canby yesterday to meet his wife, who came from Portland. He is having a very busy time at the fort just now, owing to the fact that he has to make inventory of all the medical stores at the fort on the change of officers.

KEEPS WAGES AT STANDARD.

The county is not only willing to keep its wages fully abreast of the market but is very desirous of doing so, according to a minute made in the county court record yesterday in the matter of an application by the men working on the rock crusher for an increase in their wages. The men are now drawing \$2.25 a day, and they asked for \$2.50. The court considered that the original scale was ample pay, and as much as was given for such labor in any market, consequently the application was denied.

The sentiment of the court was shown in the minute: "The county court desires and is willing to pay the prevailing wages paid by other people in the county for like work, but is not willing to set the rate."

MATTINEE EVERY DAY AT 2:30.

The Unique theater, located next to Peterson & Brown's has made a great impression on the public, judging from the crowds which visit the place nightly. The show is without doubt the best ever seen in Astoria. The management has done away with all the delays between acts. Something is on the stage from the time the curtain raises until the show is over. A matinee is given every afternoon commencing at 2:30. A special matinee will be given for the children next Saturday afternoon. Admission 10 cents.

Pears'

soap does nothing but cleanse, it has no medical properties; for the color of health and health itself use Pears'. Give it time.

Sold all over the world.

PERSONAL MENTION

Albert Brix is in Portland.

A. Dunbar is in Portland today.

J. C. Pope is in from Elsie attending court.

Mrs. Captain R. E. Howes is in Portland.

Ed Miller was over from Adairs place yesterday.

A. S. Reed has returned from a visit in Portland.

A. Campbell was here from Cathlamet yesterday.

B. S. Worsley was down from Svensen yesterday.

Thomas Corbett the seiner was in the city yesterday.

James Titus was down from John Duya yesterday.

C. G. Johnson was up from Hammond yesterday.

Miss Dorothy Dunbar is visiting in McGowan, Wash.

Frank M. Warren was here from Portland yesterday.

C. L. Houston, the contractor, is on a visit to Portland.

Misses Adele and Madge Sovey returned last night from a visit to Portland.

Major Humphries has returned to his post at Fort Stevens, having recovered from a seige of illness.

Miss Juliette Ashley and Miss Hannah Helgen of Brookfield were visiting friends in the city yesterday.

Herman Wise will leave Sunday night for a visit of a month to the east, where he will purchase an extensive stock for his store.

Master Fish Warden Van Dusen returned last night from Salem, where he has been attending the regular monthly meeting of the state fish commission.

COURT HAS ROUTINE BUSINESS.

The business transacted by the county court yesterday was principally of a routine character, most of it relating to road matters.

An appropriation of \$50 was made to fill a swall on Tucker creek, near Ingalls.

The bid of W. A. Goodin—the only one—to make the fill on road 77 near Olney at \$1 a foot, was accepted.

The report of the viewers who inspected the property of J. J. Lynch and G. W. Hobson in connection with their claim for damages on account of the construction of a new road was to the effect that the land would be benefited considerably more than it would be damaged.

The report of the viewers on the Elk creek road was laid over for a second reading.

A certificate was received from the secretary of state showing that the state was indebted to the county in the amount of \$205.34 for scalp bounties, paid.

The road master was directed to present a bill for \$105.00 to the water superintendent, the amount being half the cost of the repairs and fill on he pipe line road and power house.

The road master's action in employing Parker on surveying was approved.

Reports were also considered on the road from Warrenton to Sunnyside, and on the bridges at Adams' place on the Elsie road and at Svensen.

F. M. WARREN IN CITY.

F. M. Warren, the wellknown Portland business man and capitalist, was in the city yesterday looking after his interests here. Mr. Warren declared himself to be more than satisfied with the way things were going in Astoria. "In Portland," he said, "business has improved considerably since the labor troubles are being settled. I have just come down on a brief business visit, and will return tonight."

SUCKER AT EACH END.

There were some eastern people on the last steamer that tied up at the O. R. & N. dock that fully believed, for awhile, all the stories that they had heard of the Columbia's richness of fish. They had lines over the sides, and fish were coming in as fast as the anglers could haul them up. When they had a painful, one of them thought of asking what sort of fish they were, although he was pretty sure that they were trout. Ticket Agent Greenough took a glance at the pail. "Suckers" he declared. "But they're good to eat!" asked the crestfallen tourist. "Sure, you can eat them," said Greenough, "lots of Chinamen do it."

GOOD FOR THE HEALTH.

What is nicer than a tender, juicy steak properly broiled? And where can it be prepared so well as at the Toke Point Oyster House? Try it. Everything that is good and in season, and served so you will enjoy it. Short orders. Private rooms. Neat and attractive.

MAY APPOINT MEAT INSPECTOR.

State Board of Health Will Decide the Question of Appointing Officials.

The question of a meat inspector for Astoria will probably be decided this month when the state board of health meets in Salem. Dr. Woods Hutchinson, the secretary, has been working in the direction of having these officials appointed, and from the manner in which the public sentiment has been expressed in other parts of the state it is likely that he will succeed in carrying out his point.

The meeting will not be until late in the month, as Dr. Hutchinson has been in San Francisco studying the plague situation, and he will later go to Washington, D. C., to attend the convention of health officers which is to be held there.

Should a meat inspector be appointed his duties would consist of examining all cattle, sheep, and so forth, before they were killed, and in inspecting all dairy cattle in his district.

Dr. Alfred Kinney of this city, who is a member of the state board, said yesterday that the secretary of the board the only salaried member, would present his report at the meeting that is to take place this month, and that while the contents were, of course, as yet unknown, it was probable that Dr. Hutchinson would recommend the appointment of meat inspectors as he had been doing some work along that line.

"It will take us some time to get the work into full swing," said Dr. Kinney. "There is a great deal to be done and at the next meeting we shall probably decide upon the general outline of our work, as well as complete the full organization of the board, which has not yet been done. When we have all our plans mapped out, it is likely that we cannot do much in the direction of putting them in force until the next legislature shall have appropriated more funds."

ASTORIA'S NEW MILL.

American Lumber Company Will Soon Build Modern Plant.

The transfer of the Alderbrook mill site to Frank Patton and N. D. Bain yesterday marks the first public step towards the realization of the new saw mill that is to help Astoria on her path to still greater success. The acquisition of the site by the two gentlemen named is preparatory to vesting it in the American Lumber company, which is to be incorporated within a few days, and will include among others as its stockowners F. L. Parker, J. E. Ferguson, and C. L. Houston. The capital of the corporation is to be \$150,000, and the saw mill to be erected will be modern in appliances and will have a very large capacity. The site selected is an admirable one for the purpose, having large water frontage and being on the railroad at the same time. The enterprise is one that will greatly benefit the city, and the incorporators are men whose names guarantee that the mill will be conducted in a progressive manner.

POSITION WANTED.

By married man with 12 years experience in general merchandise business. First class salesman and bookkeeper. Speaks Finnish and English languages. Good references. Write or call on A. Kallunki, 1232 Franklin avenue, Astoria, Ore.

A SUBSTITUTE FOR RUBBER.

After experimenting for several years a substitute for rubber has been perfected. It is produced, principally, from asphalt, and can be used in the manufacture of rubber goods, linoleum, etc. A substitute of this kind will probably answer as well as the genuine article, but in medicine it has been proven, time and again, that all substitutes are dangerous. Therefore beware of them when purchasing Hostetter's Stomach Bitters, the celebrated family medicine for stomach, liver and kidney ills, by noticing that our private stamp over the neck of the bottle is unbroken. The Bitters positively cures nausea, headache, dizziness, dyspepsia, indigestion, constipation, nervousness and general weakness. Be sure to give it a trial. For sale by all druggists and general dealers.
